SUMMARY

A passionate Backend Engineer with a strong dedication to backend development. Skilled in designing and implementing APIs, ensuring seamless integration with front-end systems. Expertise in delivering high-quality, scalable solutions throughout the software development lifecycle. Known for a strong work ethic, problem-solving abilities, and commitment to continuous learning. Enthusiastic about staying updated with industry trends and technologies.

WORK EXPERIENCE

PT. Mega Artha Lintas Data (MEGADATA ISP)

Indonesia

Network Technician · Internship

Aug 2022 - Oct 2022

- Installing, configuring, and maintaining network devices and infrastructure.
- Conducting routine inspections and troubleshooting to ensure network reliability.
- Assisting in the setup and maintenance of client network systems.
- Responding to technical issues on-site to provide swift and effective solutions.
- Collaborating with team members to complete network deployment projects.

ORGANIZATION EXPERIENCE

Amikom Computer Club (AMCC)

Indonesia

Computer Network Coordinator 2024 · Volunteering

Dec 2024 - Now

- Coordinated all activities and responsibilities of the Computer Network Division within AMCC.
- Conducted regular training sessions to enhance members' skills in computer networking, covering topics such as network setup, troubleshooting, and security.
- Fostered collaboration within the division, enabling members to actively contribute to organizational projects and events.

AGS (AMCC Goes to School) 2025 · KSK Coordinator

Dec 2024 - Now

- Direct attendees to designated locations during the CODE AMCC 2024 event, and ensure smooth flow of attendees to designated venues.
- Act as the primary point of contact for event registrants, answering questions, and providing detailed information about the event.
- Contribute to the overall organization and efficiency of the event by coordinating between attendees and the event organizing team.

FIRSTMEET AMCC 2024 · Vice Chairperson

Oct 2024 - Dec 2024

- Assisted the event chairperson in planning and executing the event with a large committee.
- Collaborated with the organizing team to design and manage the introductory meeting for new members, focusing on fostering connections and effective orientation.

EXPO AMCC 2024 · Chairperson

Sep 2024 - Oct 2024

- Leading the planning and implementation of AMCC EXPO 2024, which aims to attract Amikom Yogyakarta University students who have an interest in organizing and technology to join as official AMCC members.
- Monitored and resolved any issues that arose across all divisions of the committee, ensuring smooth execution and maintaining high event standards.
- Coordinating with a large committee to organize an interesting and well-organized event that attracts more than 300 Amikom Yogyakarta University students.

CODE (Competition of Developer) AMCC 2024 · Moderator of Competitive Programming

Apr 2024 - Aug 2024

- Facilitate discussions and manage live Q&A sessions during competitive programming.
- Support participants with guidance and clarify technical concepts to enhance their understanding.

CODE (Competition of Developer) AMCC 2024 · Liaison Officer

Apr 2024 - Aug 2024

- Direct attendees to designated locations during the CODE AMCC 2024 event, and ensure smooth flow of attendees to designated venues.
- Act as the primary point of contact for event registrants, answering questions, and providing detailed information about the event.
- Contribute to the overall organization and efficiency of the event by coordinating between attendees and the event organizing team.

PROJECT HIGHLIGHT

- Developed a modern and minimalist e-commerce platform specifically for thrifting enthusiasts. Designed a responsive user interface using Tailwind CSS to ensure seamless usability across devices. Implemented key features such as user authentication, product catalog, shopping cart, and secure payment integration. Optimized backend performance for efficient data handling.
